MEMBERSHIP OF PROFESSIONAL ORGANIZATIONS Registered with Pakistan Council of Architects and Town Planners (PCATP) as Architect (A01026).

CANDIDATES PERSONAL STATEMENT

PCATP is fast approaching its 40th anniversary - a time to reflect on the institution's transformation to protect the interests of the profession, education and professionals in Architecture and Town Planning in the rapidly changing global, regional and national scenario. Our manifesto signifies how PCATP can best serve its mandate in the present time and future in this fast-changing context. This requires a full review of its governance, operations and structure to serve the professions of Architecture and Town Planning in a progressive and astute manner. Following are short statements on areas of interventions to make PCATP a force and pride for its members:

PCATP - a National Institution

Unification with representation of all by eliminating territoriality and regional biases for the Council to flourish as a national institution to serve equally and regulate the profession and its education in a transparent manner.

Reforms in the Council – some areas

Make PCATP more sensitive to hopes and aspirations of membership in facing the challenges of changing times.

- Extension of PCATP's influence and domain to Gilgit-Baltistan and Azad Kashmir and provide registrations to professionals.
- Involve newer members to serve in its various committees.
- Develop links with other professional bodies, including PEC, on the basis of equality and reciprocity to increase access and opportunities for members.
- Employ qualified and relevant staff for efficient delivery of services.

Accountability & Transparency

Trust and respect of members in the Institution is paramount for which the staff and the elected Executive Committee will keep operations transparent and be accountable to its members. Meritocracy as opposed to nepotism and favoritism with structure for good governance will be adhered to.

Cont...

Communication

Regular communication with members making full use of social and traditional media and focus group meetings on thematic issues.

Firm Registration

Firm registration with the sole aim of benefiting the widest spectrum of membership.

CPD

CPD program to provide direct, efficient and meaningful opportunities of professional growth, benefitting all age groups with pleasure in gaining knowledge.

Incentives for Young Architects and Town Planners

- Addressing concerns faced by young architects and town planners for better opportunities and rationalized registration and examination fees for recent graduates and young professionals.
- Provide ease of business and relief for start-ups and young firms.

Gender Equality and Age Balance

To ensure participation in the Council of all genders and age groups through representation in various committees

Multiple Licensing

Abolish the current practice of multiple practice licensing and when required take legal course of action for PCATP licensed professionals to practice in jurisdictions of all Authorities countrywide.

Education and Faculty Development

- Review standards and process of placing the educational nominees in the Council to ensure meritocratic appointment and best voice for all schools.
- Establish a cell to gear the system for accreditation of schools for expedient and facilitative service.
- Training of inspectors/evaluators to ensure best practice methods of assessment.
- Regular and thematic faculty training in coordination with BAE-IAP and planners.
- Work with HEC and accredited educational institutions for the review and update of curriculum in tune with the new realities.

Due Recognition of the Professions

Pursue, at all levels, for deserved and meaningful recognition of the professions of architecture and town planning to get our members appointed and established at all posts and location that require expertise of architects and planners.

PPRA Reforms

Follow-up with PPRA to push the case for inclusion of bidding documents to enable architectural and planning organizations to have a fair and competitive operational field.

Town Planning

To pursue for National Planning Policy, Land use planning standards/ plans and municipalities to prepare master plans through Town Planners.

Being part of PCATP as a Vice Chairperson (Architecture), I will try to the best of my abilities and credentials to promote architectural profession and to address the issues faced by the professionals & academicians. Due to the COVID-19, scenario has been changed and we have to do a lot of work to open the new doors for the architects. This journey can be successful and we can achieve our targets if we organize ourselves as a community. The key issues needs attention are as follows;

- To address the issues regarding amendments/modifications in the PCATP ordinance
- To develop regional offices to facilitate architects at their own place as per PCATP ordinance
- To explore job opportunities for the fresh architects and to enable them to work for the betterment of the profession and to join their shoulders with their families to share the economic responsibilities.
- To address the issues of Firm Registrations such as categorization.
- To resolve the issues of examination for the license and examination of non-accredited batches.
- To develop platforms for the research works in the field of architecture and to provide opportunities to collaborate with international organizations.
- To develop links between the professional experts and academicians to-strengthen architectural education.

Summarizing, with the help of my professional and academic experience, I will try my best to promote architecture as profession.

CANDIDATES PERSONAL STATEMENT

Dear Planners,

Dear Planners,

I am serving as Vice Chairman (Town Planning) PCATP for the current term (2019-2021). This has been made possible due to assistance and acknowledgement of Planners all over the country. During my tenure as Vice chairman PCATP, organized series of events to raise voice of the concerns and demonstrate the vigor of Town Planners at various forums. I became part of various initiatives like Federal Commission for Review of Islamabad Master Plan, National Housing Task Force, revision of ICT Building Regulations 2020 and Modalities & Procedures for Housing Schemes of CDA. Being member of various committees of LDA, developed LDA Building Byelaws 2019, Landuse rules and regulations 2020. In addition to this, I have devised SOPS for development of Private Housing Schemes in Quetta, KPK landuse Planning Act, National City and Regional Planning Act, Urban Regeneration Act and formulation of New Urban Agenda on Sustainable Development Goals.

In addition, serving as an advisory board member of Iqbal Institute of Policy Studies, I was able to work towards the purpose of bringing town planning in the realm of public policy and acknowledging planning. For such purpose, I contributed towards the development of first National Urban Policy of Pakistan and conducted seven webinars (World Urbanism Day 2020, Urban Water Management and Prime Minister Construction Package,) to increase our influence and concerns about the current planning environment and emphasize the crucial role of urban planning in sustainable development goals.

Cont...

I worked tirelessly to convince the political regime for promotion of town planning as a profession in Pakistan during my tenure as VC PCATP and resultantly with personal efforts 100s of jobs for Town Planners are created and announced in LG&CD Punjab, Capital Development Authority, GDA, Urban Policy unit KPK and private sector. I also presented my viewpoints to different Federal and Provincial Ministries about the need of master plans for cities and resultantly master planning exercise for various cities has already been initiated.

As Vice Chairman, we have successfully shifted Head office of PCATP from Karachi to Islamabad. In last AGM dual membership has been waived and efforts were also put to go for Independent Council for Planners. I have put my utmost will and energy to safeguard the rights and privileges of town planners and town planning profession in Pakistan.

In my next tenure I will put fruitful efforts to accomplish the following targets of manifesto:

Approval of City and Regional Planning Act 2021 from Cabinet

Approval of Urban Regeneration Act 2021 from Cabinet

Notification of National Urban Policy

Establishment for Separate Council for Town Planners

Approval of Technical Allowance For Town Planners in Public Sector

I hope that in the upcoming election, as in the previous election, the planners will trust in me as a VC PCATP to continue to work for the betterment of profession. I hope to continue to disseminate the collective voice of town planners all over the country, at every existing and new platform and ensure that every planner is offered an equal opportunity to work for the profession.

CANDIDATES PERSONAL STATEMENT

Our small community of architects has become politicized and fractured. There also exists some apathy towards PCATP, especially in some sections of the youth. The need of the hour is to build bridges, initiate constructive communication with every member and work towards sympathetic and fair resolution of all grievances. I will focus on this need of the hour and try and unify our community.

I will work towards resolving the grievances of the fresh graduates and facilitate them in starting their career in the profession. This shall include review of Licensing Exam procedure and timeline, review of the internship program and rightful restoration of voting rights of those architects who graduated in last two years.

I shall devise plans for the executive committee to liaise with different government departments to increase the number of public-sector jobs for young architects.

Architecture education is in excellent hands in most institutes of the country. But the speed at which the new institutions are opening up requires qualified faculty. I shall facilitate regular faculty trainings for capacity building of the new cadre.

I wish to see a healthy, professional relationship between practicing architects and vendors. But I also wish to see a merit-based relationship where the culture of commissions and special benefits is considered unacceptable. I shall plan awareness campaigns in this regard, leading to implementation of bye-laws against this practice.

Manifesto of Ar. Fazal Subhan Yousafzai for post of Member (Architecture) Executive
Committee PCATP.

It would be a great honor for me to serve the territory of Architects, by associated with
the council of architects. It's my dream that is now I could make it possible to sort out
the problems facing by young architects across the country.
The following is the outline of my manifesto.

1. The first and foremost to me as executive member PCATP is the strengthening of
body and its role in a very meaningful way.
2. To redefine the code of ethics in professionalism.
3. 3. To entrust the architecture practices.
4. 4. it shall be my prime responsibility to lead the stakeholders, the constraints with a
uniform policy with an aim to a viable role in the economical development of the
country.
5. 5. My priority will be to create opportunities for young architects and fresh
graduates in every walk of life.
6. 6. Standardization of architecture schools is part of my mission towards a
progressive nation.
7. 7. At last but not least, I would take how to uplift the face of profession like, RIBA
and AIA.

Cont...

My introduction to you as an Architect having 15 years of professional practice nationally and internationally on different job positions in well reputed known firms, give me energy to play on front foot for all our colleague architects and the profession of architecture the right role within the society.

We architects are the creative minds and team leaders to play our positive role for the erection of built environment which are the game changer of our socio-economic life and concept of life.

Challenges are greater but the resources are not enough to fulfill the requirements of job creation for architects. No uniform education system merging the needs of our construction industry. No work for identity of Pakistani work of architecture as well as performing art. Art and architecture keep in distance as they have no close or relatively dependant on each other.

My ambition is to work for a style of Pakistani architecture which represent our thoughts our Pakistani nation, bridging of Art, culture and architecture in respect and responsive architecture practice to natural environment of the country.

These efforts and decisions will enhance the job opportunities for our youngsters and senior professionals of the respective fields.

No country can become developed if they not take decision of carefully use their resources what so ever Almighty given to an area or country.

Let the profession go ahead, work for the profession. If we can produce better practioners why not channelize their expertise in different departments govt. and none govt.

I would like PCATP will help out the Govt.Boddies and officials to give space to the practioners to t in the development sector where right now, none architects are taking make part in major decisions for mega projects.

My whole energies will be for you and architecture of the country. Standardization of architecture schools and education is a part of my mission towards progressive Pakistan.

Yours Sincerely.

CANDIDATES PERSONAL STATEMENT

Being an executive member of PCATP, I started my struggle for the progress of my community in 2012. Number of issues were need to be resolved. Among them, the top priority was to address the issues such as shifting of Head Office of PCATP from Karachi to Islamabad as per PCATP ordinance, multiple licensing, and job opportunities for the fresh graduates. Although I have been successful to achieve my targets to promote architecture as a profession despite of too many hardships during my struggle but there is a lot of work to be done with the future prospective.

Covid-19 affected architects also in the professional and academic areas and it is the need of the hour to join shoulders with our regulatory body to promote architectural profession. The main agenda items are as follows;

- To establish regional offices as per PCATP ordinance to facilitate architects in their own region.
- To develop a link between the PCATP, Architects and academicians to play their role for the development of profession
- To address the issues regarding Firm Registration
- To organize the issues regarding examination for licensing to work as professional and examination of no accredited batches of universities.
- To address issues regarding internship, it must be completed during the academic qualifications to enable architects to start earning after graduation.
- To open new horizon to enable architects to work in international market.

Being a part of PCATP as an executive member, I will try my best to promote architectural profession and to enable architects to work for the community.

Best Regards
Ar. Mazhar Munir.

Dear fellow architects and town planners,

After graduating from NED University of Engineering and Technology in the year 2002, I had opportunity to work with renowned Architect Mr. Misbah Najmi for a couple of years.

I had also an opportunity to serve as a faculty member in the department of architecture in the NED university of Engineering and Technology, Karachi for a period of over a year under the chairman ship of prof. Dr. Noman Ahmed.

Thereafter we setup a new firm under the name “**Rchitect**” and have been providing professional services with my partner architect Arshad Baloch.

We have completed several projects of repute during this period including extension and face lifting of international airports at Quetta and Faisalabad.

I wish that the profession of architecture, planning gets due respect, recognition and dignity in the country.

CANDIDATES PERSONAL STATEMENT

Respected Fellow Architects,

I am currently serving on the outgoing executive committee (2019-2021) of the PCATP. I am a trained architect by profession and an academic. I hold B. Arch, MSc and PhD degrees in Architecture. I started my career at NESPAK Karachi and at NESPAK, Islamabad. I was part of a large international design team comprising of Flughafen (Germany) and NESPAK (Pakistan) working on the Jinnah Terminal, Karachi Airport and the Allama Iqbal International Airport, Lahore and the design of the Islamabad International Airport. At NESPAK Islamabad, I contributed to the design of the A.W.T. Plaza, Rwp., the V.I.P. lounge at Chaklala Air base and multiple residences. I also participated in design competitions such as the P.M.'s office at the PM secretariat Islamabad, the Tomb of Rehman Baba, Peshawar among others. I spent the next ten years working in Design offices in Ireland and England, gaining diverse experience consisting of designing student housing for the University of Galway, community centres, shopping centres and residential projects.

I started my career in academics in 2005 with the N.C.A. Pindi Campus, where I served as the founding Director. I joined COMSATS University in 2007; serving as the H.O.D. Architecture (2010-2012), Chairperson of the Department (2015- Nov.2018) and now as the Dean, Faculty of Architecture & Design (April 2018-todate).

Cont...

I have served 2 years (2019-2021) as part of a vibrant PCATP Executive Committee, during our tenure, we have brought about many changes and improvements promised to our membership and much beyond that. These helped to strengthen and expand the standing of the PCATP. These include among others:

1. Bringing the PCATP head office to Islamabad to improve its functioning as a Federal regulatory body.
2. Designing and launching the new PCATP website to facilitate the interface with membership, as well as a PCATP documentary to highlight the workings of the council.
3. Contributions from PCATP to the PM Fund for Covid-19, to improve the visibility of the profession as an important stakeholder in Pakistan.
4. Conducting an Online survey of the profession to understand its current challenges and plan future actions.
5. Conducting an Online survey to find out the impact of Covid-19 on the Profession, to plan interventions.
6. Development of the CPD program to ensure that Architects' careers develop within the profession and academia.
7. Streamlining the Architect's Licensing Examination (ALE) to ensure that young graduates are equipped with the relevant knowledge and experience to set up independent practices.
8. Adoption of the 'PCATP Zero tolerance policy on workplace sexual harassment' to promote an equal and just professional environment.
9. Revising the rules for registration of firms and adoption of copyright clause, to improve professional practice.
10. Ensuring the representation of PCATP in all government bodies and planning councils, working group for standardization of building codes, standards, specifications for low-cost residential units.

We have strived to make the PCATP more inclusive and interactive within the profession. We have worked hard to engage with the relevant professional and government bodies to bring PCATP on board and to improve the selection processes that engages architects on all the platforms and groups which shape the built environment.

I thank you for your trust and support in 2019 which helped to bring about many improvements in PCATP. With your support, I would like to continue my work for an involved and interactive P.C.A.T.P. executive committee (2021-2023) to improve and support academia and the profession. I thank you for your trust and patronage again to make PCATP a more dynamic institution.

CANDIDATES PERSONAL STATEMENT

I, Ar. Shazia Abro, completed my B. Arch degree from Dawood College of Engineering & Technology Karachi in 2005. After about 9 years' experience of working in design consultancy firms with senior Architects, I joined Shaheed Allah Bukhsh Soomro University of Art, Design & Heritages, Jamshoro (Formerly CEAD) in 2014 as a faculty member. I am currently pursuing post graduate program in Architecture (M. Arch.) at Mehran University of Engineering and Technology, Jamshoro.

I constantly improve my professional knowledge and develop my personal skills, through participating in seminars and conferences organized by PCATP, IAP and other professional bodies. This has resulted in acquiring;

- Excellent Interpersonal Communication Skills
- Willingness to take on responsibilities with a commitment to complete the task at hand
- Work effectively independently or as part of a team
- Good planning and time management skills

With over 15 years of professional experience and advanced education in architecture along with a primary degree as an Architect duly accredited by Pakistan Council of Architects and Town Planners, I am a result-oriented professional, who is highly adaptive to the needs at hand and takes challenges head-on, and have been consistently praised as a problem-solver, focused and diligent individual by my co-workers and management.

Presently, I am a Member of PCATP Executive Committee 2019-2021. I am humbled to have been asked to contest the elections for Member PCATP, by my colleagues and friends from the architectural community. Having firsthand experience of professional design consultancies, academia and council I find myself in a unique scenario where I may prove useful to advocate and strive to bring about appropriate changes in the way our profession is taught and practiced in Pakistan. I promise to bring a deep commitment to spare no effort, to build a vibrant and effective voice for all Architects by making PCATP strong and effective.

I seek your support to serve as your representative in the upcoming PCATP elections and pledge to serve our community with diligence and honor if elected.

Thank you and I appreciate your consideration.

Since my graduation in B-Arch from National College of Arts, Lahore in 1993 and especially after my return from Pratt Institute, New York after completing my masters, I have always felt this urge of doing something more for my profession apart from my personal practice and continues Teaching.

My father's work place "Saeed Akhtar Studio" was already acting as a nucleus for a lot of fine arts enthusiast. This urge directed me to organize numerous functions for my immediate fraternity as well large scale functions for the whole fine arts community till date.

Only a few years ago when I was requested to join the organized platform of IAP that I realize that through these available platforms, there is a lot which can be done on every level of the profession as a part of a highly qualified team.

Through my presence as executive member IAP Lahore chapter and later chairman IAP Lahore chapter, I think I was able to do a few positive things for my profession through the IAP platform and now would like to do the same through platform of PCATP. I also feel that these are changing times and the development which I have seen in our profession and allied facilities are all unprecedented.

I feel this a perfect time to support a team which is already doing a great job but can definitely use some meaningful support

CANDIDATES PERSONAL STATEMENT

I have been working as an urban planning, an urban economist and policy maker for more than two decades and have tremendous experience in the said fields. My focus of work has been Balochistan because the province has been neglected in almost every matter including urban planning, despite having the largest area by size and massive potential to be developed in a planned and sustainable way.

I have worked for the profession and taken up the issues/problems faced by old and young town planners of Balochistan at local and national level. I have endeavored to create awareness about the profession in the province and provide young Balochi urban planners with opportunities to work as planner through my firm called Waheed Associates. Through the platform of my firm, I have worked on various projects including preparation of City Bylaws for Naseerabad Township, Socio-Economic Survey of Dera Murad Jamali, planning of Fruit & Vegetable Market complex Phase-II (23 Acres) at Hazar Gunji Quetta, Planning of Anaj Mundi Complex at Dera Murad Jamali and planning of Bus Adda at Dera Allah Yar.

Moreover, I have contributed to develop various architectural projects all over Balochistan including Designing of Institute of Management Sciences, Education Department and Computer Science Department at University of Balochistan, designing of Junior School at Garrison Academy Quetta, Planning & Layout of Central Jamia Mosque at Kandhar, planning & designing of Tableeghi Markaz (Farooqia Masjid) Eastern Bypass Quetta, and planning & designing of Taleem Foundation School at Killa Saif Ullah.

The purpose of establishing an urban planning firm in Quetta was and still is to promote the profession in the province and to increase awareness regarding the significance and dire need of the urban planning in the entire province where people are unaware of the building and planning bylaws, unaware of the opportunities that come with proper planning and designing. I have played a key role to protect rights and privileges of town planners and town planning profession and I will continue to do so especially in my own province.

I hope in case of my election as Executive Member PCATP, PCATP would contribute for the welfare of town planning profession and town planners at all levels which includes increasing employment opportunities for urban planners in Balochistan, development and accreditation of town planning department in different universities in the province, renewal of registration of town planners with PCATP, training opportunities for town planners, adjustment of town planners where nonprofessionals are working on the posts designated for town planners and bringing town planning at the same level of importance and prominence as other disciplines.
